

When Growbaby started in 2003 it was a distant dream that we would be serving so many people within our community. Now we serve thousands of families each year across the UK, and there are Growbaby connections all over the UK and even one in Germany. Because we feel that it would be helpful to have a directory of the other connections (some called Growbaby some not) we have produced this booklet. It will of course go rapidly out of date.. But we hope it will help you. With love from the Growbaby family x
